Subject: Re: Updated PFAS list - Decision Needed

So including refrigerants is not an issue?

Do you (EPA) have a decision on inclusion (or not) of environmental sampling of CFCs from the Water Quality Portal?

Subject: Updated PFAS list - Decision Needed

As the smaller chain PFAS chemicals fit the working definition of PFAS that the workgroup developed, they would be included in our updated data retrievals.

- 1) Do you want to exclude any chemicals from the National PFAS Data Explorer, such as CFCs or refrigerants? We noticed that the new list would grab sampling of two CFCs that have been submitted to the Water Quality Portal.
- 2) Also, development of the PFAS list and any customization of the list should probably be noted in the tool's documentation and/or disclaimer text.
